

Achilles Apostolou

3D Technical Artist | Pipeline & Graphics

Profile

I was born in Athens, Greece, in 1997 and have lived in Athens, Heraklion, Copenhagen, and Geneva. My passion for cinema, digital arts, and innovative technologies led me to earn a BSc in Computer Science from the University of Crete, specializing in Computer Graphics, and an MSc in Medialogy at Aalborg University Copenhagen, focusing on real-time graphics and virtual production. In my professional career I have progressed from 3D Designer and VR Content Developer to Technical Director, overseeing 3D content pipelines and collaborating across development and design teams. In my free time I enjoy sailing, bouldering, traveling and meeting new people.

Core Technical Skills

Technical Art & Pipeline

DCC scripting • shaders • rigging • optimization • synthetic data generation.

3D Design

Modelling • 3D environments • digital lighting • materials.

Engineering & R&D

XR performance • prototyping • technical problem-solving • emerging media research • AI-assisted workflows.

Virtual Production

Camera tracking • cinematic lighting • digital cinematography • motion capture.

Project Management

Technical direction • team leadership • documentation • onboarding • production planning.

Employment History

Head of Design & Technical Direction, ORamaVR

June 2023 - Present

Geneva, Switzerland

- Lead a team of 4 full-time designers and project-specific external professionals.
- Project management, documentation, interns training and on-boarding.
- Tech Art, rigging, 3D Lighting, custom shaders creation (Unity ShaderGraph & HLSL).
- Art Direction of all virtual environments, characters, avatars and medical visualization.

Technical Director & 3D Designer, ORamaVR

December 2019 - May 2023

Heraklion, Crete, Greece

- 3D Technical Direction & virtual lighting.
- Digital Content Creation and supervision in over 30 VR simulations.
- Optimized 3D pipelining for high performance in VR.
- Pipeline optimization and custom internal tools creation. PBR Materials and OpenUSD automation.
- Content re-usability & visual consistency.

Virtual Production Researcher (Internship), AAU CREATE - SMILE Lab

September 2023 - January 2024

Copenhagen, Denmark

Being part of the SMILE Lab crew in AAU CREATE, I worked in over 4 virtual production workshops while researching light automation techniques using deep learning for virtual environments.

3D Generalist (Part-Time), CNA Simulations VR

December 2020 - February 2021

Remote (USA)

Contributed to establishing the visual identity for the company's initial 3D scenes. Developed the DCC pipeline and supplied assets for upcoming releases.

Software

- Autodesk Maya, Blender 3D, Reallusion Platform (Character Creator, iClone), Houdini
- Unity 3D, Unreal Engine 5
- Adobe Substance 3D (Painter & Designer), Marmoset Toolbag, Materialize
- Adobe Creative Cloud, Premiere Pro, DaVinci Resolve
- Github, Confluence, Notion, Trello

Hobbies | Activities

- Blurspot Films: Co-founder
- Over 15 music videos and short films created since 2020
- Film Production
- The Egg (dir. Yannis Giannetakis, Achilleas Apostolou) | 2024, Denmark
 - Milky Way (dir. Lefteris Yannakoudakis) | 2020, Greece
 - Déjà Rêvé (dir. Achilleas Apostolou) | 2019, Greece
 - Under bølgerne, over skyerne (dir. Katrine Brocks) | 2019, Greece
- Sailing Licence and Diploma
- NASPOR Sailing Club | 2021

Education

MSc Medialogy, Aalborg University September 2022 - October 2024
Copenhagen
Copenhagen, Denmark

MSc in Medialogy AAU (CPH). Specialized in Virtual Production, Real-Time Computer Graphics, Spatial User Interfaces and Digital Cinematography. Projects included (click on links for more info):

- MSc Thesis: "*Luminating Scenes: A study of Light Automation using Deep Learning in Virtual Production Environments.*"
- Virtual Production Short Film: "*Rear Mirror*" in collaboration with Peter De Neergaard
- Volumetric Rendering Using CT Scanned Data: A study of turning CT Scans into 3D volumetric models using custom Ray-Marching algorithms.
- Machine Learning Insights into Movie Trends: Exploring Patterns in the IMDb Database.

BSc Computer Science, University of Crete September 2015 - June 2021
Heraklion, Greece

BSc in Computer Science. Specialised in Computer Graphics and courses such as Graphics, Optics, Real-Time Computer Graphics.

- Undergraduate scholarship funded by ICS-FORTH (September 2020 - September 2021).
- BSc Thesis: "Interaction with Virtual Assistants through the Uncanny Valley in Virtual Reality".
- Variety of Programming Projects using: C#, Python, C, C++, HTML, R, SQL.
- Expertise in Visual Computing, Graphics Programming and Game Engines.
- Variety of Projects in Assembly (RISC-V and MIPS architectures), Algorithmic Analysis, Signals & Systems, Data Structures.
